Freelance UI/UX Designer

Nov/2021– 2023

I completed a number of projects individually or in cooperation with a team during my freelance work and some projects as a volunteer, the most important of which are:

- Developed a website for online education named "Pulse of Universities."
- Created a mobile application for the distinguished school, accessible on mobile phones.
- Designed a website for a technology company.
- Developed a "Business Portfolio" website for a professional photographer.

Projects:

1. Major airline company (Mobile Application)
    - Mobile application interface design and experience
    - Dashboard interface design
    - Examine the efficiency and effectiveness of the design

2. Blood laboratories application (Mobile Application)
    - Mobile application interface design and experience
    - Dashboard and landing page interface design
    - Research and test user experience and design effectiveness
3. *Bil3rabi (Web Platform)* — an Arabic platform for design templates and UX resources.
    - Designed the platform's user interface and user experience.
    - Created the admin dashboard for managing templates and content.
    - Integrated Firebase database to display and update templates and articles.
    - Developed the website using (HTML / CSS / JavaScript / Bootstrap / Firebase).
